

INIT Gait Database Release Agreement

Introduction

The aim of the INIT Gait Database is to provide a benchmark to allow the definition of measures of gait regularity and validate their effectiveness over abnormal gait sequences. Institute of New Imaging Technologies (INIT) from University Jaume I has copyright in all collected data and video, and is in charge of the distribution of the database.

Distribution

The Database can be downloaded through any web browser as a ZIP file protected with password, which will be set on a case-by-case basis. The URL for download, as well as the corresponding key to unzip, will be issued by email after receiving this document signed by a legal representative from destination institution. Link will be available for one month.

Consent

By signing this document, researcher accepts all of the following clauses:

1. Redistribution: INIT Gait Database may not be shared, published, copied, split or amended, in whole or in part, without written consent from the database administrator.
2. Commercial use: INIT Gait Database, in whole or in part, may not be used or modified for commercial purposes.
3. Citation/Reference: All research works and papers which use the INIT Gait Database must acknowledge its usage by including an appropriate citation to the work
 - Javier Ortells, María Trinidad Herrero-Ezquerro, Ramón A. Mollineda, *Vision-based gait impairment analysis for aided diagnosis*, Medical & Biological Engineering & Computing, 2018.
4. Indemnification: The undersigned agrees to indemnify administrators of INIT Gait Database, authors of the aforementioned paper, volunteers which participated in the database recording and/or corresponding institutions and facilities if any of the previous clauses is violated.
